

Freelancing Front End developer with basic understanding of Back End

Twelve years experience in Web Design and Development. Currently seeking a freelance position. Additional skills include image manipulation, graphic design, wireframes, UI. [Portfolio](#): [crownrockdesign.com](#)

Work Experience:

Rafina Chihuahuas: Website redesign 2021, maintenance since 2019. Site built with Bootstrap and customized CSS. [rafinachihuahuas.com](#)

Window Shopping: Website development, graphics, hosting and maintenance 2016 - 2019. Site built with Bootstrap and custom CSS. Provided SEO and I established presence on Google Business and Facebook. More info on my site [crownrockdesign.com/WindowShopping/index.html](#)

Evansville Obedience Club: Took over website June 2010. Rendered images web ready. Established presence on Facebook and Google Business. Site redesigned in 2017 to make it mobile friendly. More info at [crownrockdesign.com/EOC/index.html](#)

Tri-State Alliance: Pro Bono recreation of established site into mobile friendly site. Created new logo. Working with a group of members to get their input and approval was challenging and fun. [tsagl.org](#)

I began web design with my first site created in 2002 with Front Page. Since then I've done a lot of work and studying.
