

Objective

I seek freelance work, or an employed position in web design and development. Image manipulation and graphic design are additional skills I offer.

Work Experience

Window Shopping: Website development, graphics, hosting and maintenance since 2016. Site built with Bootstrap and customized CSS. SEO and established presence on Facebook and Google My Business.
windowshoppingevansville.com

Evansville Obedience Club: Took over website June 2010. Redesigned site in 2012. Provided graphics and rendered images web ready. Established presence on Facebook. Site redesigned in 2017 to make it mobile friendly. Providing hosting and maintenance.
evansvilleobedienceclub.com

Tri-State Alliance: I volunteered to create a new, mobile friendly site when I saw how outdated and unappealing their previous site was. Working with a group of members to get their input and approval for this pro bono job has been a challenging and fun experience. I have many ideas and "upgrades" I wish to do, beginning with SSL, and am awaiting their approval. tsagl.org

Previous clients:

Working Dobermans of Kentucky: Created site 2012, and maintained through 2014. Provided graphics and imaging. workingdobermansofkentucky.com

My Beginning: Created my first site 2002 with Front Page and revised it in 2011 after learning HTML and CSS3. It was originally written in XHTML and I revised it to HTML5 and Bootstrap about 3 years ago.
